McMinnville, TN 37110

54nd Annual
Southern Nursery Association

Research Conference Proceedings 2009

Southern Nursery Association, Inc.
Steve Newton, Executive Vice President
2498 Jett Ferry Road, Suit 201
Atlanta, GA USA 30338
Voice: 770.953.3311 Fax: 770.953.4411
Email: mail@sna.org
Website: www.sna.org

Proceedings of the SNA Research Conference are published annually by the Southern Nursery Association. One electronic copy (CD) is provided at no charge to all SNA members, horticultural libraries and contributing authors. The SNA Research Proceedings from 1990-present is also available for purchase on CD-Rom.

It is the fine men and women in horticultural research that we, the Southern Nursery Association, pledge our continued support and gratitude for their tireless efforts in the pursuit of the advancement of our industry.

Additional Publication Additional Copies:

2008 CD-Rom Additional Copies:

SNA Members	\$15.00*
Horticultural Libraries	\$15.00*
Contributing Authors	\$15.00*
Non-Members	\$20.00*

*includes shipping and handling

Acknowledgments

The Editor and Board of Directors of the Southern Nursery Association wish to express their sincere appreciation to Jim Robbins, Crofton Sloan, John D. Lea-Cox, Gene Blythe, Scott Langlolis, Carol Robacker, Chris Wilson, Mark Windham, Mengmeng Gu, Joseph Albano, William Klingeman, Marco Palma and Anthony LeBude for the fine job they did as Section Editors and Moderators. Thanks go to Edward Bush for his efforts in selecting and instructing judges and Moderating the Bryson L. James Student Research Competition. Our very special thanks Holly Hodges who spent many hours helping the Editor organize the program, and most importantly, preparing the manuscripts for publication. Without their efforts, this year's Proceedings would not be published.

We extend our gratitude to all the researchers and nurserymen who attended the 54th Annual SNA Research Conference and/or contributed to these Proceedings. You make this annual event a success with international recognition.

Notice

Mention of a trademark name on a proprietary product does not constitute a guarantee and/or warranty of the product by the researcher(s) or their respective universities or the Southern Nursery Association and does not imply its approval to the exclusion of other products that may also be suitable.

Permission to reprint articles and quotations of portions of this publication is hereby granted on condition that full credit be given to both the author(s) and the publication, *Proceedings of the SNA Research Conference*, along with the date of the publication.

The Southern Nursery Association is not responsible for the statements and opinions printed in the *Proceedings of the SNA Research Conference*; they represent the views of the author(s).

Using Research Data Safely and Effectively

Good research is conducted under an exact set of controlled conditions, varying only the specific treatments which are to be evaluated. Results from the specific treatments are directly applicable to your operations only if all the conditions in your operation are controlled the same as in the research. Unfortunately, this seldom happens. However, this does not mean that you cannot benefit from the research. What it does mean is that you should use the research information on a trial basis if your plant species, soil type, watering method, size and age of plant, climatic region, etc. is different than that described by the researcher.

What an alert grower should expect to gain from these research reports is ideas – ideas as to the best control for insects, disease, nematodes and weeds – labor saving ideas such as chemical pruning and using growth regulators to minimize maintenance. Also, ideas on water management, nutrition, alternative growing media, new plants for landscaping and guides for improving profits and marketing skills can also be found.

Should you desire additional information on any report, please contact the author.

THE PORTER HENEGAR MEMORIAL AWARD
for
HORTICULTURAL RESEARCH

The Southern Nursery Association (SNA) has honored Dr. Alan S. Windham, a faculty member at the University of Tennessee with the Porter Henegar Memorial Award during the 54th Annual SNA Research Conference held in conjunction with SNA's Annual Meeting and Convention in Marietta, GA. Dr. Mark Windham, a past winner of the award, made the presentation to his brother, Alan, during the SNA Research Conference.

Originally known as the Research Award of Merit, the recognition was created in 1968 to honor those individuals who have made outstanding contributions to ornamental horticulture research and specifically to members of the association. In 1972, the award was renamed the Porter Henegar Memorial Award in honor of one of SNA's former Executive Secretaries. Nominations are made each year by the SNA's Director of Research and past award winners.

Dr. Windham is a Professor of Plant Pathology for diseases affecting ornamental plants and turfgrass in the Entomology and Plant Pathology Department at the University of Tennessee. He completed his Ph.D in Plant Pathology with a minor in Soil Science at North Carolina State University at Raleigh in 1985.

Dr. Windham has conducted educational programs and consulted with nursery, greenhouse and turf industries nationally and internationally. He has published over 100 research papers, book chapters and popular press articles. He has lectured in many undergraduate/graduate courses in plant pathology, mycology, floriculture, nursery and turfgrass management. He teaches a graduate level course in disease diagnosis. His current research interests include the diagnosis and management of emerging plant diseases of ornamental plants and turf and the development of disease resistant ornamental plants.

Dr. Windham is a member of the American Phytopathological Society and was inducted into the honorary societies Gamma Sigma Delta and Sigma Xi. In 2000, received the Gamma Sigma Delta Award of Merit for his work with the UT Dogwood Working Group. In 2002, he was awarded the American Society for Horticultural Science Extension Publication Award for *Dogwoods for American Gardens*. In 2007, he was awarded two plant patents for new disease resistant flowering dogwoods. Also, in 2007 he was named Turfgrass Professional of the Year by the Tennessee Turfgrass Association.

**The Bryson L. James
Student Research Competition
2009 Awards**

This long-standing program was renamed in August 1989, in honor of Dr. Bryson L. James, longtime Director of Horticultural Research for the Southern Nursery Association. As Dr. James has been an active participant and leader in the annual Research Conference for more than 50 years, the award, named in his honor, is a tribute to his tireless efforts on behalf of the researchers, the association and the industry. Listed below are guidelines for the Student Competition as well as this year's winners:

1. Any student of a university or a college having researchers that participate in the Southern Nursery Association Research Conference, are not more than one (1) academic year removed from graduation and whose research was completed prior to graduation are eligible to compete.
2. Research is to be that of the presenter and a part of his/her educational studies. Contract work, unless a part of a thesis or classroom report (credit given), is not acceptable, as it may provide unlimited funding and an unfair advantage.
3. The number of student papers from a single university or college may be limited, should time restraints dictate.
4. The student must have submitted a title to the SNA Conference Editor by the deadline specified in the Call For Titles. The paper should then be submitted both to the Section Editor for the Student Competition and to the appropriate "topic" Section Editor no later than the specified deadline.
5. The paper must follow the guidelines for format and subject matter as stated in the Call For Titles for the SNA Research Conference.
6. Student and advisor should be listed as co-authors.
7. Oral presentation must be limited to seven (7) minutes. An additional three (3) minutes will be allotted for questions. A penalty of two (2) points per minute or part thereof for every minute over seven (7) minutes will be assessed.
8. Judging shall be based on preparation of the paper (50 points) and oral presentation (100 points) for a total of 150 points.

2009 Bryson L. James Student Competition Award Winners

B.S. Candidates

1 st Place	Anna-Marie Murphy	Auburn University
2 nd Place	Christina Twardowski	Virginia Tech
3 rd Place	Theo Steele	University of Kentucky

M.S. Candidates

1 st Place	Elisabeth Meyer	North Carolina State University
2 nd Place	Carey Hebert	North Carolina State University
3 rd Place	Chris Marble	North Carolina State University

Ph.D. Candidates

1 st Place	J. Kevin Parris	Clemson University
2 nd Place	Anthony Witcher	University of Southern Mississippi
3 rd Place	Paul Jackson	Auburn University

Table of Contents		
Origin	Page(s)	Title and Author(s)
Water Management		
TX	2-7	Effects of Substrate and Irrigation Salinity on the Growth of <i>Sophora secundiflora</i> and <i>Cercis canadensis var. Mexica</i> . Genhua Niu, Mengmeng Gu and Denise S. Rodriguez
FL	8-11	An ETo-based Canopy Closure Model that Successfully Grows Medium Water Requiring Woody Shrubs. Richard C. Beeson, Jr.
GA	12-16	Daily Water use of Abutilon and Lantana at Various Substrate Water Contents. Jongyun Kim and Marc W. van Iersel
GA	17-21	Soil Moisture Sensor-Based Irrigation Reduces Water Use and Nutrient Leaching in a Commercial Nursery. Marc van Iersel, Rose Mary Seymour, Matthew Chappell, Frank Watson and Sue Dove
KY	22-27	Cornus, Gas Exchange, and Drought. Amy Fulcher and Robert Geneve
MD	28-34	Deployment of Wireless Sensor Networks for Irrigation and Nutrient Management in Nursery and Greenhouse Operations. John D. Lea-Cox, Andrew G. Ristvey, David S. Ross and George F. Kantor
MI	35-38	NCDC216: A New Multistate Group for Water Management and Quality for Ornamental Crop Production and Health. R. Thomas Fernandez, John Lea-Cox, Gladis Zinati, Chuanxue Hong, Raúl Cabrera, Donald Merhaut, Joseph Albano, Marc van Iersel, Thomas Yeager and Douglas Buhler
SC	39-43	Nutrient Remediation Using Vegetated Floating Mats. Sarah A. White, Brandon Seda, Matthew Cousins, Stephen J. Klaine, and Ted Whitwell
TN	44-48	Know Your Creek: A Look at the Water Quality of Two Creeks at the Collins River Sub-watershed. Sam O. Dennis, Debbie Eskandarnia and Arvazena Clardy

Table of Contents		
Origin	Page(s)	Title and Author(s)
Plant Pathology and Nematology		
TN	49-53	Fungi Associated with Naturally Occurring Leaf Spots and Leaf Bights in <i>Hydrangea macrophylla</i> . M. T. Mmbaga, M.T. Windham, Y. Li, and R.J. Sauvé
TN	54-56	Comparison of Resistant and Susceptible Flowering Dogwoods in Pathogenesis of <i>Discula destructive</i> . Q. Cheng, A. Windham, W. Klingeman, H. Sakhanokho, Y. Li, M. Windham
TN	57-62	Fungicidal Resistance of <i>Corynespora cassiicola</i> from African violet. J.S. Clark, M. Windham, A. Windham, W. Copes, E. Blythe, and S. Bost
MS	63-65	Chemical and Hot Water Treatments to Control Rhizoctonia on Infested Azalea Stem Cuttings. Warren E. Copes and Eugene K. Blythe
MS	66-68	Seasonal Presence Of Rhizoctonia Species In Container-Grown Azalea. W.E. Copes, M.A. Cubeta, T. Toda, and T.A. Rinehart
AL	69-74	Unknown Leaf Spotting and Defoliation of Knock Out Roses. A. K. Hagan and J. R. Arkidge
AL	75-80	Reaction of Summer and Perennial Flowers to the Southern Root Knot Nematode <i>Meloidogyne incognita</i> race 3. A. K. Hagan and J. R. Arkidge
TN	81-82	Rust Diseases in Ornamental Grasses. Y. Li, M. Windham, R. Trigiano, A. Windham, B. Ownley, G. Gwinn, J. Zale and J. Spiers
TN	83-85	'No Spray' Rose Cultivars for the Mid South. J. Mynes, M. Windham, A. Windham, Y. Li, W. Copes, and J. Spiers
TN	86-91	Pathogenicity Tests for Phytophthora species Isolated From Tennessee Nurseries. L. Santamaria and M.T. Mmbaga
TN	92-94	Efficacy and Growth Effects of Fungicide Spray of Growth Effects on Flowering Dogwood. A. S. Windham, G. Sizemore, M. T. Windham
TN	95-99	Symptomatology of Hosta Viruses. A. S. Windham, M. Windham, M. R. Hajimorad, O. Adedire, A. Self

Table of Contents		
Origin	Page(s)	Title and Author(s)
Engineering, Structures and Innovations		
AL	101-105	In-Field Subsurface-Drip Evaluation. Tyrel Harbuck, Donald Eakes, Jeff Sibley, John Fulton, Mark Dougherty and Steven Taylor
AL	106-110	Integration of Intensive Aquaculture and Greenhouse Crop Production. Adam M. Sleeper, Jesse A. Chappell, Jeremy M. Pickens, Wheeler G. Foshee III, and Jeff L. Sibley
KY	111-114	Designing a Growth Chamber to Monitor Transpiration. Theo Steele, Amy Fulcher, Rich Gates, and Robert Geneve
GA	115-116	Alternative Renewable Energy Sources for the Green Industry. Forrest Stegelin
MS	117-120	Current Mechanization Systems among Nurseries and Greenhouses. Randal Y. Coker, Benedict C. Posadas, Patricia R. Knight, Christine H. Coker, and Scott A. Langlois
AL	121-123	Evaluation of Bark-Based Poultry Litter as a Substrate Component in Nursery Crop Production. Jeremy M. Pickens, Jeff L. Sibley, Charles H. Gilliam, Sarge F. Bilgili, Joseph B. Hess, Kenneth S. Macklin, and James O. Donald
Weed Science		
AL	125-128	Early Post-emergent Control of <i>Euphorbia maculata</i> (Spurge). Stephen C. Marble, Charles H. Gilliam, Albert Van Hoogmoed, and Glenn R. Wehtje
AL	129-133	Evaluation of Four Herbicides to Control Yellow Nutsedge and Assess Seedling Tolerance in Loblolly and Slash Pine Seedlings. D. Paul Jackson, Charles Gilliam, David South, Scott Enebak, and D. Joseph Eakes
TN	134-138	Ornamental Plant Safety and Herbicidal Efficacy Following Use of Select Combinations of HPPD and PSII Inhibitors. Greg R. Armel, William E. Klingeman, Phillip C. Flanagan and Mark Halcomb
AL	139-144	Can Roundup Be Safely Used Over-the-Top of Nursery Crops? Albert J. Van Hoogmoed, Charles H. Gilliam, Glenn R. Wehtje and John W. Olive

Table of Contents		
Origin	Page(s)	Title and Author(s)
FL	145-151	Phytotoxicity of granular formulations of mesotrione, pendimethalin + dimethenamid-P and sulfentrazone to six wildflowers. Robert H. Stamps and Annette L. Chandler
Entomology		
TN	153-154	Miscanthus Mealybug, <i>Miscanthicoccus miscanthi</i> (Takahashi): A New Pest of Ornamental Grasses in Tennessee. Frank A. Hale and David Cook
TN	155-157	Imported Fire Ant Introductions by New Developments in Rutherford County, Tennessee. Samuel Ochieng and Frank Mrema
TN	158-162	Leafhopper Control in Field-grown Red Maples with Systemic Insecticides. J. B. Oliver, D. C Fare, C. M. Ranger, N. N. Youssef, S. Scholl, M. A. Halcomb, M. E. Reding, and J. J. Moyseenko
TX	163-164	Efficacy of Kontos Against Madeira Mealybug. Scott W. Ludwig
Container Production		
MD	166-170	Potential Adsorption of Zinc in Crumb Rubber-Amended Green Roof Substrates. S. Lorelly Solano, Andrew G. Ristvey, John D. Lea-Cox and Steven M. Cohan
MS	171-175	Effects of Organic and Inorganic Fertilizers on Marigold Growth and Flowering. Guihong Bi, William. B. Evans and Dennis Rowe
AL	176-179	Utilization of Spent Tea Grinds as a Substrate Component in Container Production. Daniel E. Wells, Jeff L. Sibley, Jay L. Evers, Charles H. Gilliam, and William A. Dozier, Jr.
TN	180-185	Fertilizer Source and Application Time Impact Growth of Containerized Oak Liners. Sue Scholl and Donna Fare
AL	186-190	Amending Pine Bark with Alternative Substrates. Anna-Marie Murphy, Charles H. Gilliam, Glenn B. Fain, H. Allen Torbert, Thomas V. Gallagher, Jeff L. Sibley, and Stephen C. Marble
AL	191-194	Fertilizer Techniques for WholeTree and Clean Chip Residual Alternative Substrates. Whitney Griffin, Glenn Fain, Charles Gilliam, and Donald Eakes

Table of Contents		
Origin	Page(s)	Title and Author(s)
FL	195-200	Pruning Effects on Trade #1 Sweet Viburnum Growth and Leaf Area. Jeff Million, Tom Yeager and Joseph Albano
MD	201-207	Modeling Water and Nutrient Runoff from Nursery and Greenhouse Operations in Maryland. John Majsztrik, John D. Lea-Cox, Andrew G. Ristvey and David S. Ross
KS	208-211	Availability of Clean Chip Residual as a Growth Substrate in the Southeast United States. C.R. Boyer, T.V. Gallagher, C.H. Gilliam, G.B. Fain, H.A. Torbert and J.L. Sibley
NC	212-215	A Nursery Friendly Method for Measuring Air Filled Porosity of Container Substrates. Ted Bilderback
MD	216-220	Real-Time Measurement of Electrical Conductivity in Soilless Substrates. Félix R. Arguedas, John D. Lea-Cox and Andrew G. Ristvey
VA	221-223	White Pine as a Pine Tree Substrate. Robert D. Wright, Brian E. Jackson, and Michael C. Barnes
FL	224-227	Container Production of Native Purpletop (<i>Tridens flavus</i> (Lam.) Trin.), a New Ornamental Grass. Gary W. Knox, Jeffrey G. Norcini and James H. Aldrich
